Kairos Resources is happy to announce a new partnership with the Arrowsmith Program from Canada with the first intake set to begin in January 2016.

About the Program

The Arrowsmith Program is a result of 35 years of sound neuroscientific research with the aim of helping students to strengthen their weak capacities. Read more about the program [here](#).

We hope that with this new program we can continue our mission to cater to the academic needs of high-functioning learning disabled children.

If you wish to find out more about this program and other programs that we offer, please contact us [here](#).

Exciting times are ahead!
